TIMECODE	ENGLISH
00:00:02	FEMALE SPEAKER: Welcome and thank you for taking part in this clinical study! You'll be using Unify, a 'study companion' app designed to make being part of a clinical study easier.
00:00:14	Let's explore how Unify can help.
00:00:17	From the Unify Home screen you will find everything you need to stay on top of your study.
00:00:23	This is where you will see reminders for study activities, such as when to complete a health questionnaire.
00:00:30	It is important to stay logged in to Unify throughout the duration of your study, so that you can continue to receive these important reminders and notifications.
00:00:40	During your study, you may experience changes in your health.
00:00:44	Letting us know how you are feeling is very important.
00:00:48	Sharing your experiences can help us understand more about your treatment and support you and other people.
00:00:56	The Unify app allows you to report how you are feeling in a simple and secure way by completing health questionnaires.
00:01:04	These will appear at regular intervals on your Home screen for you to complete and usually only take a few minutes.
00:01:11	These questionnaires may ask you to record any

	symptoms you experience while receiving treatment, about your wellbeing or quality of life, or how easy you find completing daily activities.
00:01:23	One of the questionnaires you will receive through Unify is a symptom tracker questionnaire.
00:01:28	This will help you recognise and record some of the symptoms you might experience.
00:01:33	Based on your response, you may receive personalised recommendations to help you manage any symptoms you are experiencing.
00:01:41	If you are having any concerns about your health, please be sure to discuss these with your doctor or nurse.
00:01:48	The answers you provide to the questions may not be frequently monitored by your study doctor.
00:01:54	You may see the 'Articles' tab.
00:01:57	From here, you can access useful articles related to your condition and clinical study at any time.
00:02:04	By selecting the icon at the top of the screen, you can find contact details for your study team, frequently asked questions about your study and Unify videos for further support.
00:02:16	From the 'Profile' tab, you can find the technical support section which offers a contact helpline and guidance about how to use Unify.

00:02:25	Your study doctor will also always be on hand for any additional queries, or support.
00:02:31	Thank you for watching this video - we've now finished our tour of Unify and you're ready to go!
