Study Title: - Phase III, Randomized, Open-label, Global, Multicenter Study of Rilvegostomig or Durvalumab in Combination with Chemotherapy as a First-line Treatment for Patients With Advanced Biliary Tract Cancer (ARTEMIDE-Biliary02)

Reference: - D702NC00001 Study

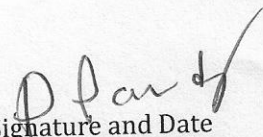

Subject: - Patient Accrual method for above reference study.

This is to document that for above mentioned study following patient accrual method will be utilized.

1. Patients will be identified by PI/Sub-I from his/her consultations at the site as well as from other practicing OPD's.
2. Site may identify patients from their database available at the site.
3. Site may get patients via referral mode also.

This is to confirm that all study related procedures including signing of Informed Consent Form for above identified potential patients will be done at study site only

Thanking You,
Your Sincerely,

Signature and Date
Dr. Prasant Pandey
Principal Investigator
